BASIN UNITS

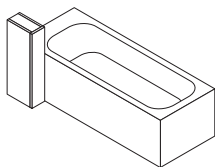

BASE UNITS

PLANNING GUIDE

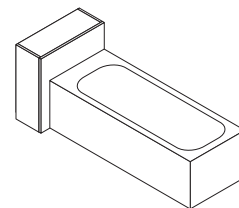

Side bath bulkheads

The Side Bath Bulkheads are designed to extend a run of units.

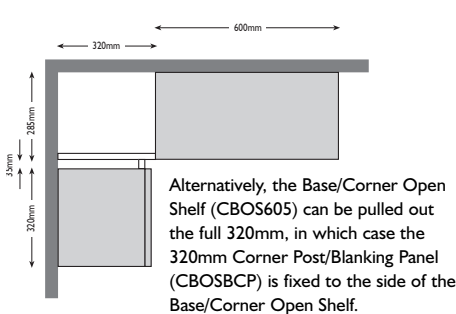

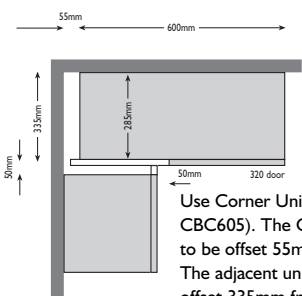

Back bath bulkhead

The Back Bath Bulkhead is designed for cutting to the required size on site and is supplied with a white MFC fascia panel for tiling on site.

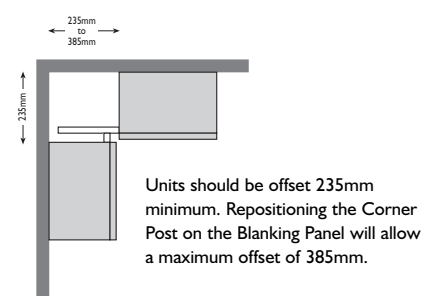

CORNER ARRANGEMENTS

Base units

Wall units

CONSTRUCTION

CABINETS

Manufactured from 15mm high density melamine faced particle board. Cam & dowel construction.

HINGES

All metal 110° clip on type with three way adjustment. Fully concealed. Soft close action.

WALL BRACKETS

Concealed, three way adjustable hanging bracket.

DRAWERS

3-sided removable drawer system. Metal drawer box construction, solid bottom. Full adjustment on drawer fronts to allow full alignment. Soft close action. Fully extendable.

ADJUSTABLE LEGS

Base unit support leg creates ample height for all wastes and services.

MIRRORS

All mirrors are on 15mm backboards in compliance with BS7449. Mirrors are 4mm glass, polished all round.

GLASS SHELVES

All glass shelves are 6mm, polished all round.

COMPATIBILITY

The range is compatible with all major back to wall sanitaryware products.

INSTALLATION GUIDE

ALWAYS CHECK FOR ELECTRICAL WIRES, WATER PIPES OR OTHER SERVICES BEFORE DRILLING.

BASE UNITS

Set height for base units at 811mm on wall above lowest point. Plumb and secure firmly through back rail and brackets. Adjust leg for base support. Continue adding adjoining units, screwing or bolting together and fixing as above.

WALL HUNG BASE UNITS

Set height for base units at 811mm on wall above lowest point. Firmly screw brackets to wall and use adjustment to level. Secure with additional fixings through back rail and brackets. Continue adding adjoining units, screwing or bolting together and fixing as above.

WALL UNITS

Set height for wall units at 1931mm on wall above lowest point. Firmly screw brackets to wall and use adjustment to level. Secure with additional fixings through back support rail or bracket. Continue adding adjoining units, screwing or bolting together and fixing as above.

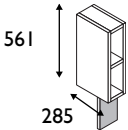

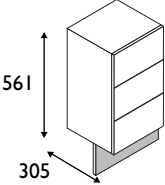

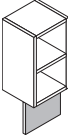

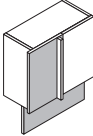

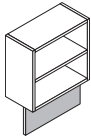

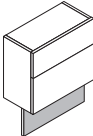

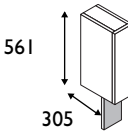

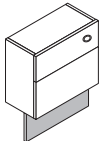

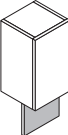

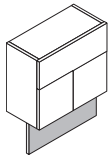

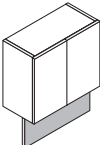

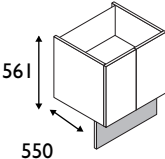

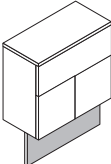

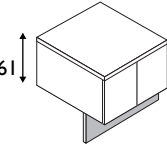

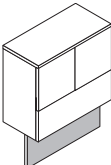

IMPORTANT

All units should be assembled and fitted using instructions and installation guidelines provided. Any screws and other fixings used must be suitable to support the units, when loaded, into the material they are to be fitted. When using hanging brackets, if a firm fixing cannot be achieved, we **STRONGLY** recommend the use of adjustable support legs.

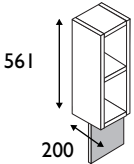

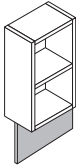

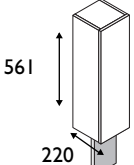

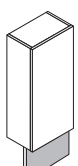

INSTALLATION SEQUENCE

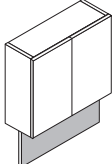

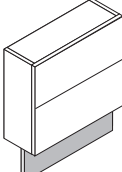

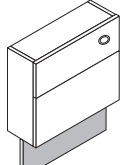

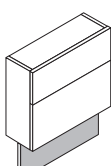

1. All hot & cold services 'T' off at appropriate positions
2. Locate waste outlets according to the plan
3. Fix base units to the wall
4. Fit sanitaryware
5. Fit countertops
6. Fit wall/dresser cupboards where appropriate
7. Connect and check plumbing
8. Fit continuous plinth if used, scribing as necessary
