

However you see it, Linear can make it happen. Whatever interior you're working with and whatever mood you're trying to capture, our clean, minimal lines give you the flexibility to think creatively. Whether you're complementing historic detail or making a sleek, modernist statement, Linear helps you unshackle your imagination and do something special with every space.

FORM

Linear's minimal aesthetic is driven by simplicity of form. We've stripped out embellishment to create radically simplified designs. They're rational. They're functional. They're very beautiful. And their flexibility helps you bring pin-sharp contemporary design to any environment.

Inspired by uncluttered modernism, we've created a range of styles that complement anything from a new-build apartment to a refurbished mill. Lines are clean and satisfying. Tones are subtle and muted. Doors and drawers are handleless. These are kitchens that look at home in any space. We've built enormous flexibility into all our ranges. If you want tall, wide, fitted or island units, you'll find our kitchens can flex to fit your imagination.

COLOUR

Colours don't have to shout to get noticed. Subtle tones make a statement of their own, exuding an understated confidence that emphasises form and adds a quiet sophistication to a room.

TEXTURE

When textures work hand-in-hand with colours, you get a thousand nuances of tone and mood. They throw a spectrum of subtleties into the mix, which you can use to accentuate lines, maximise light or create intriguing contrasts.

Linear offers a varied range of finishes to help you make the most of these subtleties. You can master the art of understatement with a variety of matt designs featuring touchable textures across a variety of wood grains and colours. Or you can select from a palette of gloss designs in a spectrum of subtle shades. Whatever you choose, it will retain a soft, restrained tone that focuses attention on the sleek, simplified forms of our kitchens' minimal, modern designs.

LIFE

More and more people are seeing the kitchen as the centre of their home. Designers have responded by letting kitchens spill into living areas, creating fluid, multi-purpose environments that maximise space and reduce the need for interior partitions.

Linear's clean, simple lines and flexible units are built for this contemporary world. They let you blur boundaries, adapt to structures and complement existing period detail. You have the freedom to build up, spread out or stand alone. So your imagination is free to roam. Linear's stripped-back designs help you create stylish, adaptable spaces that can act as both a soothing escape and a hub of social activity. They help you think creatively and design clean, clutter-free environments that are the centrepiece of your home.

AVANT

Avant's base cabinet doors and drawers feature a gently chamfered top edge and are available in a range of on-trend matt colours or sensational gloss finishes that will add an extra dimension to your kitchen design.

CLEAN LINES & SUBTLE TONES

The contrasting colours of *Matt Concrete* with the *Solid Timber* work surface create a masterpiece of design. The kitchen is finished with a *Black Linear* trim, black metal plinth and a co-ordinating *Concrete* laminate work surface.

SCENARIOS

No two kitchens are the same. Whether you have a compact space or an expansive open-plan environment, Linear will create a perfect kitchen. Whatever the situation, our wide range of units allows you to marry elegant simplicity with smart, space-saving design. Over the next few pages, we've illustrated just a few examples of how our kitchens can suit the space you're living in.

Use pan drawers and mid-height units
Make the most of a spacious kitchen with co-ordinating wall bridging units and spacious pan drawers, a bank of compact mid-height appliance housings and a sculptural breakfast bar to complete the look.

Try a bank of Tall Units

Tall appliance housings create a stunning backdrop to the kitchen whilst offering maximum storage space. The island offers the ultimate cooking and social arena in this highly popular kitchen layout.

Combine base, wall and island

Full height base units and compact wall units keep this design simple, alongside the feature illuminated shelving. An island hob and extractor add a focal points to the layout and the island doubles as a breakfast bar, blurring the lines between kitchen and living space.

Utilise your apartment

Working in a small space doesn't mean you have to compromise on style. Flow a compact bank of units along one wall to create an integral part of any living space. Hidden internal drawers allow for cutlery trays and accessible storage space within the base cabinets.

Design a classic U-shape

Create a functional working kitchen environment with this design where units wrap around for the convenience of the user. Bi-folding wall units, a corner larder unit and pull out larder wirework provide ample storage space.

FINISHES

From super matt finishes to exquisite shark’s nose profiled worktops, we’ve selected a wide range of finishes to perfectly complement the sleek lines of our kitchens. They give you everything you need to accentuate shapes and make the most of the kitchen space.
