Creating partnerships

We're not just a kitchen supplier, Skyline partner with developers, architects and specifiers to create special designs in high-rise living spaces. With our experience in large scale projects and capacity to expand as your business demands grow, you can rely on Skyline to deliver – on time, within budget and to the highest standard.

We offer a complete solution that involves a five part process to ensure outstanding service and results:

1. Design
2. Project management
3. Logistics
4. Installation
5. Service care

Inspiration

Style, design, textures, colours, storage, statement features and layout.

There are many details involved in the creation of a kitchen space that embodies the vision of the development.

This is our art.

This is why you are welcome to visit our Skyline Design Centres to browse our portfolio of kitchen styles and designs. Our designers will develop concepts and propose materials that will create the statement you desire.

Skyline design team offer the
expertise and flair to create show
stopping kitchen spaces.**

Urban inspiration

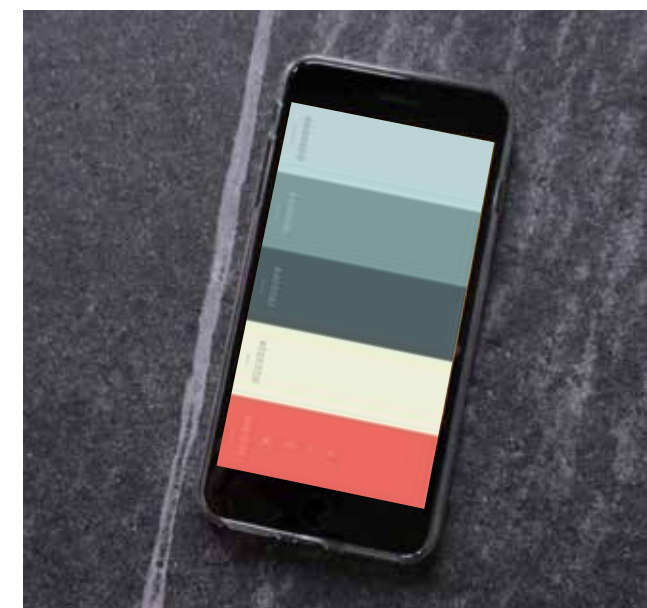

Mood

A kitchen should reflect the essence of your development. Its character and ambiance should be in keeping with the interior design and external personality.

Trend

Art deco, industrial metalwork, stone or timber, sleek and modern. The latest trends in urban fashion influence are reflected in the kitchen styles that you can select.

Colour

The kitchen artwork is completed by our ever changing colour palette that is regularly updated to include the latest decors and future trends.

Linear Living

This iconic kitchen design is ideal for open plan kitchen dining areas, utilising both pocket folding doors and wall hung drawer cabinets.

When in use the tall kitchen doors open and fold away so that the sink, dishwasher and oven can be easily accessed. When not in use the doors can be closed to provide an uncluttered backdrop to the living space.

SKYLINE

Finesse

Contemporary design meets classic style. Linear Finesse combines the ultra modern simplicity of handleless design with the traditional feel of a shaker door and drawer. Available in a trend dark green, universal pebble or exquisite charcoal as shown here, Finesse features the latest surface coating technology providing a robust anti-fingerprint finish that protects the kitchen.

16 — 17

Form

Sleek surfaces and delicate details define the visual language of these sensational kitchens that feature irresistible matt tones. This concrete effect kitchen features a matching concrete worktop and is complemented by black accents with a matt black Linear handleless trim, black metal plinth and smoked black glazed cabinets creating a masterpiece of design.

The door and drawer fronts on this range are made using 100% recycled chipboard.

SKYLINE

Inline Studio

Featuring cleaner lines, sleek profiles and a modern aesthetic Inline Studio is an elegant and sophisticated design that marries traditional character with elements of a more contemporary style. The modern Inline trim allows for the handleless look to seamlessly blend with traditionally styled frontals. The design is a matt painted one piece shaker available in finishes including Chalk White, Indigo and Pearl Grey, and a full selection of Inline trim finishes.

20 — 21

Fitted Wardrobes

Our Urbano brand offers a collection of front frame wardrobes, sliding wardrobes, bedside cabinets, chest of drawers and home office furniture to suit any property. Glide sliding wardrobes are shown here and are available in a wide range of colour options and styles. The sliding doors are supplied with a minimalist frame and provide ample storage space for those much needed items. This design style reflects urban living at its best.

Process

Design

Bring your ideas to life

Our skilled Skyline designers will work with you to create the look and feel to set your project apart.

The team bring together materials and samples alongside 3D plans to visualise your final designs.

Our Linear and Gallery kitchen brands are available on NBS Source, making us the first kitchen supplier to feature products across the NBS software platform. The ranges within Linear and Gallery are available as specifications and individual products as BIM objects to download to streamline the kitchen specification and design process for you. Skyline is also a provider of RIBA approved CPD content.

All of the timber based products used in our furniture are sourced with full FSC® certification, we can help you select finishes based on sustainability criteria such as using 100% recycled materials.

Project management

Our team of Project Managers are experienced in the co-ordination of kitchen installations in high-rise developments.

They will be dedicated to your project and will co-ordinate the supply and installation of your kitchen furniture. This includes working with your programme to check-measure plots, co-ordinating deliveries, the use and management of approved fitting teams and ongoing independent quality checks.

Your Project Manager is supported by our kitchen designer and your Business Manager to ensure the smooth progression of your development.

Logistics

Based at state-of-the-art facilities in South Yorkshire, our manufacturing and warehousing boasts over 935,000 sq. ft. of capacity, which gives us the flexibility to supply and install every type of project. We use some of Europe's most advanced manufacturing and assembly technology. Our capacity for supplying assembled cabinets is one of the largest in the UK and has built-in flexibility to meet changing demands. With a typical stock value holding of £22 million, of which £10 million is safety stock, you can be confident that your requirements will be consistently met.

Installation

Your Project Manager will co-ordinate a team of approved kitchen fitters who are skilled in completing quality kitchen installations. We only use approved independent fitters who are regularly audited to ensure they meet our high standards.

To aid the smooth installation of our kitchens we ensure that all of our ranges and cabinets achieve the FIRA Gold Product Certification, which is the ultimate mark of product excellence.

Service care

To demonstrate our confidence in the performance and quality of our manufactured products we offer a five year manufacturing guarantee*.

Our industry leading customer care team operates nationwide to investigate and resolve any post-occupation warranty queries that may arise. Our team resolve 95% of customer care queries within 30 working days or less.

*Please see the full manufacturing guarantee for further details.

Customer extranet

The Symphony Extranet provides Skyline customers with an ultra-secure gateway to a wealth of information. You can track quotes, drawings and orders in real time, plus you can view invoices and supporting information.
